

HIGH COUPON – ATTRACTIVE BARRIERS: CALLABLE WORST-OF BARRIER REVERSE CONVERTIBLES

DESCRIPTION

In comparison to standard Worst-of Barrier Reverse Convertibles, this product offers investors a higher coupon. On the other side, the issuer has the right to redeem the product early at 100% plus the corresponding quarterly coupon payment on one of the given early redemption days.

OPPORTUNITIES

- A guaranteed coupon will be paid in any case: attractive yields even if markets should trade sideways or even decrease slightly.
- Conditional capital protection: as long as no Barrier Event is triggered, the investor will receive the denomination.
- Liquid secondary market on the SIX Swiss Exchange.

RISKS

- If a Barrier Event has occurred and at least one underlying closes at or below its initial fixing level at maturity the investor will receive delivery of the underlying with the worst performance and can therefore lose all or part of his investment.

BARRIER EVENT

A Barrier Event shall be deemed to occur if at any time on any exchange business day during the Barrier Observation Period the level of at least one of the underlyings' bid prices has been quoted and/or traded at or below the respective barrier level, as reasonably determined by the calculation agent.

EARLY REDEMPTION

The issuer has the right to redeem the product early on the following dates: 07.09.2010, 07.12.2010, 07.03.2011. In case of an early redemption, the investor receives 100% plus the corresponding quarterly coupon payment.

BARRIER OBSERVATION PERIOD

28.05.2010 – 31.05.2011
