Product description

This Product offers the Investor a Coupon Rate regardless of the performance of the Underlyings during lifetime whilst combined with a conditional downside protection. If no Barrier Event has occurred the Investor will receive the Denomination at the Redemption Date. If a Barrier Event has occurred but all Underlyings close above their Initial Fixing Level at the Final Fixing Date the Investor will still receive at the Redemption Date a Cash Settlement which equals the Denomination. Otherwise the Investor will receive at the Redemption Date either a round number (i.e. Conversion Ratio) of the Underlying with the Worst Performance or, as the case may be, a Cash Settlement in the Settlement Currency, as further described under Redemption.

The Issuer has the right for Early Redemption, as further described in "Early Redemption" below.
